## PROFILE

I started web development in early 2026 and have been working for paying clients since the summer. I build websites for small businesses in Transylvania from concept to launch: design, code, multiple languages, booking systems, online shops, domains and SEO. Three of my client sites run live on their own domains, and I have made more than 60 personalised design previews for businesses. I am looking for a role at an agency or company where I can work in a team on bigger projects.

## EXPERIENCE

### Freelance web developer

Summer 2026 – present

**Aphrodite Szépségszalon** · aphroditeszalon.ro

Full site for a five-person salon in Hungarian and Romanian, with a **custom online booking system** on Google Apps Script and Google Calendar: approval flow, rescheduling and cancellation on a self-service page, notifications in the guest's language. Playwright E2E tests for the booking flow; GDPR, booking data auto-deleted after 12 months.

**Tommy's Pizza & Food** · tommyspizza.ro

Data-driven menu (Node.js) in Hungarian and Romanian. Custom WebP + srcset image pipeline: **−81% image weight on mobile** (3.3 MB → 0.6 MB). Technical SEO, Cloudflare DNS and Pages.

**HobbyGSM** · hobbygsm.com

Phone accessories shop on **Shopify**: custom CSS/JS layer on the Horizon theme, Romanian–Hungarian translation, legal pages, custom domain.

**Design previews and lead generation** · 60+ businesses

Personalised showcase pages generated from templates; a Node.js + Playwright collector that finds businesses without a website on Google Maps and builds a filterable call list.

## VOLUNTEERING

### ATA Transylvanian Youth Association

2021 – 2026

Organising student days, freshers' balls and exhibitions with other young people; team coordination and ownership of tasks.
